

Boulder Café Scientifique

We meet at BJ's, 1125 Pearl St., downtown Boulder. Seating and refreshments commence at 5:30 and the talk begins at 6:10 PM.

The dates for January and February Cafes will be somewhat irregular due to the holidays and speaker availability. Please mark your calendars for the next two events:

January 24th, Dr. David Norris (Integrative Physiology, CU Boulder) will speak on "Environmental Estrogens: Sex, Lies, and Water Supplies." Dr. Norris has been studying estrogens in wastewater and their effects on producing intersex fishes in Boulder Creek.

February 7th, Dr. Marc Bekoff (Ecology and Evolutionary Biology, CU Boulder) will speak on "Animal Passions and Beastly Virtues: Science sense, Common sense, and Heart." Dr. Bekoff is a leader in the field of Animal Cognition.

Please forward this message to others that might be interested in Cafe Scientifique.

If you wish to be placed on the Boulder email list, reply to me via e-mail: kearnsca@rtt.colorado.edu
