

COLORADO

CAFÉ SCIENTIFIQUE

NOTE: NEW DATE ► TUESDAY 30 JUNE 2009
at the Wynkoop Brewing Company

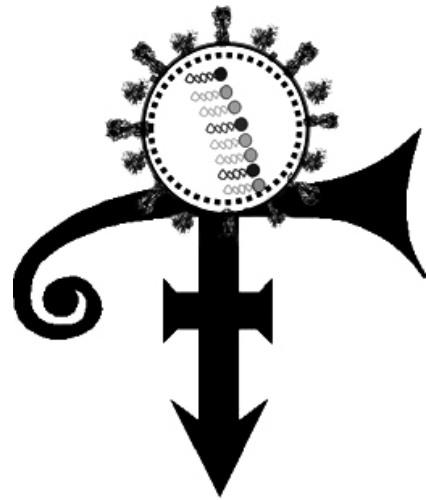

<http://www.wynkoop.com/>

Corner of 18th and Wynkoop in LoDo, Denver
About a block from Light Rail. Thirteen minutes by foot from Auraria.

H1N1: The Virus Formerly Known as Swine Ann-Christine Nyquist, MD, MSPH

Associate Professor of Pediatrics, University of Colorado Denver

No abstract available as no one knows what is going to happen with this new...outbreak? epidemic? pandemic??? Chris Nyquist, Medical Director of Infection Prevention at The Children's Hospital, an expert on virus outbreaks, has studied flu, SARS and AIDS. She will give us the lowdown on the new quadruple reassortant virus (bits from North American and Asian piggies, humans, and birds) that is going around. That is, if any of us are still healthy enough to crawl to the 'Koop for an evening of suds 'n' science.

EVERYONE IS WELCOME. The discussion starts at 6:30 in the Mercantile Room (no food service there). Come before 6 PM to leave yourself time to get something to eat, or stay and eat afterwards. We end around 8 PM.

There's no charge. The Wynkoop is generously providing the facility; we buy our own drinks. It is first come, first seated, and **seating is limited** so that everyone can take part in the discussion.

The Colorado Café Scientifique is organized by an informal group of President's Teaching Scholars and faculty from CU and institutions up and down the Front Range, as well as science fans from industry, government and elsewhere. We welcome your input, including ideas for speakers and topics. Bring them with you to the next Café, or e-mail them and any questions to John.Cohen@UCHSC.edu
